Raws in New York continued strong until the 19th ult., when a slight decline took place, and since that time the demand has been light and transactions small. The trifling

sales reported are without significance and hardly a guide for quotations.

Price of retined in New York also declined, and Granulated was quoted at 6%c., on the 18th ult., and 6%c., on the 28th dit. Since the 28th however the prices have advanced again, and Granulated is quoted at 6%c. Foreign Sugar Markets have continued strong and excited, and London Beets have advanced from 18s. on Nov. 8th, to 15s. 3d.

Mail advices from New York of 30th ult., state that there has been no disposition on the part of Refiners to replenish their stocks by purchases either on the spot to arrive, or for shipment, thus affording no definite basis

and consequently they are not desirous of selling at a reduction in price. December is generally a dull months in the

Sugar trade. The market is more or less under the influence of the Louisiana Crop, which is being rapidly marketed. The influx of this supply throughout the West and South West, necessarily curtails the demand for Eastern refined. Last year the whole production of the Southern States amounted to only 80,860 tons, which was considerably less than an average crop. This year the yield will probably prove the largest since the war and will reach 150,-000 tons. With a prospect of a dull season Refiners are not disposed to increase their supplies of Raw material and under these circumstances very likely during the next few weeks prices may show an easier ten-

DIED

GLOVER-At Honolulu, Dec. 12, 1887, at the family residence, Punchbowl street, Mrs. D. W. Glover, a native of Tabiti, aged 51.

Y. M. C. A.

The monthly meeting of the Y. M. C. A. took place Thursday. The attendance was little more than a quorum, the absence of members being accounted for by the St. Andrew's Church Fair being open.

Mr. J. B. Atherton gave an account of his recent visit to the California State Conven-

tion held about four weeks ago, at Wood land. There were in attendance one hundred and sixty delegates, most of whom were young business men. The greatest interest and enthusiasm prevailed.

Hon. A. F. Judd told of his recent visit to Waimea, Hawaii. After Court, he had visited, as President of the Hawaiian Blue Ribbon League, Laupahoehoe, Pasuhau and other points, and was everywhere received most cordially by the people. The meeting held in the church at Pasuhan was an ova-tion. The interior of the church was protion. The interior of the church was pro-fusely decorated, and the path leading to it strewn with roses. A large number of per-sons took the piedge, among others Mr. J. K. Kaunamano, whose coming forward, pre-ceded by a short speech, created a sensation. A collection was taken up at this meeting, amounting to forty dollars, which was handed to the Judge, to be delivered as a Christmas present, to Miss Mary Green missionary of the W.C. T. U. in temperance work among Hawaiians. To this the sum of \$10 was added by friends in Waimea when

The judge returned to that place.

The judge reports the people, especially natives, very much interested in temperance, and considers that the manifest improvement among them in this respect is due to

the work of Miss Green.
After some further discussions on matters pertaining to the association, the meeting
